Self-adhesive Wall Tiles Premium

Metal and Stone Hexagonal

270-4008

29,0 cm × 28,8 cm

📦 10 × 1 pcs.

Self-adhesive Wall Tiles Premium

Tips for easier application of the tiles

The d-c-fix® Premium Wall Tiles have a strong adhesive backing to ensure a lasting adhesion to the subsurface. In order to make the application easier we recommend the following steps:

1. Place first tile to be applied where desired BEFORE removing backing paper
2. Mark any cutting that is necessary
3. Cut tile if needed
4. Remove backing paper
5. Apply a simple solution of soap and water to the glue – this will make the tile easier to re-position if necessary
6. Position first tile and let water dry. Once dry, the tile will adhere with normal strength
7. Apply remaining tiles orienting on the first tile
